Construction Machines

Applications

ROSTA
Mobile crushing plants

- Variable sloped positions possible
- Screen attached to support structure
- High vibration isolation
Mobile screening plants

- High isolation
- Screen attached to support structure
- Damping excessive belt vibration
Recycling sorting plants

- Long-lasting and high isolation
- Rocker arms for Flip Flow solutions
- One part solution
Winch drum controls

- Compact, reliable
- One mechanical part
- Constant pressure on the wire rope
Vibrating compactors

- Damping vibrations on handlebars
- Long-lasting and maintenance free
- High vibration isolation
Chain and belt drives

- Extending life of belts, chains and bearings
- Universal and simple installation
- Vibration damping
The Blue Ones from ROSTA
