Vibrating separators

- resilient suspensions
- fully aligned oscillations
- corrosion resistant
- continuous motion control
Vibrating feeders

- impact proof mounts
- high degree of isolation
- solid-borne sound absorption
- overload-proof

www.rosta.com
Separation tables

- rocker arms for counterbalanced systems
- smooth operation
- longlife control levers
Flip-Flow separators

- efficient spring accumulators
- highest flow capacity
- facilitate long stroke motions
Crushers and shredders

- high absorption of reactive forces
- continuous control of belt tension
- avoid excessive belt overload
Belt conveyors

- continuous surface cleaning
- fast compensation of obstacles
- long-lasting scraper mounts
The Blue Ones from ROSTA

The leading manufacturer of torsional rubber springs
